

Perimeter Institute for Theoretical Physics, University of Waterloo, Canada

Madhavan Venkatesh and Vasudev Shyam of XIIB were invited to the Loops 13 Conference in Canada as participants and speakers. The conference was organized by the Perimeter Institute of Theoretical Physics, University of Waterloo, Canada between July 22nd and July 26th 2013. The paper that was jointly presented by both was titled "The canonical Lagrangian approach to three- space general relativity".

Vasudev Shyam has been offered to do a direct Master's program known as Perimeter Scholars International Program in 2014- 2015.
